

.....Andrea Adler

NOT Your ORDINARY Motivational/ Inspirational **SPEAKER**

Aren't you tired of the "RAH, RAH" motivational speaker who leaves an audience without substantial, sustainable content?

*To manifest change, whether the change be individual or collective, we need to create a **morphogenesis**.*

Andrea transforms our limited understanding, and sets a new high water mark for marketing ourselves, ideas, products, and services through a new set of visual and mental lenses. Her approach is philosophical, conceptual, and practical.

No one holds a crowd in the palms of her hands with such grace and power.

Andrea Adler is the founder of Holistic PR and the author of *Creating an Abundant Practice* and *The Science of Spiritual Marketing: Initiation into Magnetism*. An international speaker and workshop presenter, Andrea demonstrates how to integrate spiritual practice and psychological self-inquiry into a fundamental transformation of people's lives and their marketing approaches.

"From the moment Andrea began to speak, she had the entire audience spellbound. She clearly knows how to communicate from the heart, and is able to teach that skill to others."

—James Dillehay, Co-author, *Guerilla Marketing for Artists*

"Andrea is a master teacher, bringing humor, wisdom and compassion to an age-old concept that many of us are afraid to tackle. Her depth of knowledge is remarkable and awe inspiring."

— Phillip Goff, Owner of *Tools for Life*
